

STRANGE CONNECTION

(Properproud/Black Leather/Space Factory - SPAIN)

- LIVE-ACT or DJ -

Biography

Strange Connection is a project that was born in Terrassa city (Barcelona – SPAIN) in late 2006 as an idea of Santi Serrate and Roger Salmerón to unify under one name their concerns in the production. Santi and Roger already have spent more than 10 years dedicated to electronic music, as DJ's under the names of Steve Johanson & Deck Larsson, and in the production and direction of their own label **Properproud** created in 2005. With the creation of Strange Connection unified their ideas in the production shaping the concept of the new electro-techno and EBM. Creating and producing tracks where you can observe their influences -ranging from classics like Front 242, Nitzer Ebb, Laisons Dangerous... until new producers such as The Hacker, David Carretta, Millimetric... -and his own style.

At the beginning of 2007 decided to adopt the name of Strange Connection for all their projects, not only for production also for their sessions as DJ's. Leaving the names of Steve Johanson & Deck Larsson, who for so many years have

accompanied them, aside forever. The first appearance of Strange Connection in a club took place on May 11th 2007 in the club Le Tryptique (Paris – FRANCE) in one of his popular Scandale Party (in which played artists like Terence Fixmer, Franz & Shape,... etc.). But their performances as Steve Johanson & Deck Larsson have taken place on dozens of clubs and festivals like Moog, Code Club, etc. They had residences in clubs like Ciclik, Dob Club or Warm Up Room and played with artists like Millimetric, STAMBA, Robert Calvin, Delon & Dalcan, Iňaky Marin Jaümetic, SWAT Squad, Freitzetglauben Crew, etc....

Since March 2008 Strange Connection's jobs have seen the light. The EP "A Jewel Between The Trash" for Elektrocuts label (Madrid) - (Elektrocuts 005) was the first released work and their first hit came with the track "Midnight In Paris" that was charted and played by Dave Clarke. "Spain Scene" the second track included on the EP was supported by Dave Clarke too. After the big success of his first EP a lot of tracks and remixes have seen the light on labels as Space Factory (David Carretta's label), Black Leather, Black Montanas, Toyfriend, M-Tronic, Electro Arc...Strange Connection remixed important artists as Millimetric, Adriano Canzian...

The first live-act of Strange Connection was on 27th March 2009 @Stradust Club (Madrid) for 1000 people and after that they palyed their live-act in important festivals as Soundcheck.

Currently Strange Connection are working on the production of new tracks, remixes and their first album and the reappearance of Properproud at the scene stood again as one of the best electro-techno and EBM labels.

Strange Connection is still a young project, but it will provide new airs to the scene, good productions and a clear spirit by relaunching a style that currently doesn't enjoy much public as before.
